

HOW CAN WE HELP YOU?

Optimize your format
& strategy

TO BE NUMBER ONE, YOU NEED TO UNDERSTAND THE AUDIENCE FIRST

BRAND SUPPORT STRATEGIC STUDIES

MAP YOUR MARKET TO POSITION YOUR BRAND SUCCESSFULLY

Can you afford not to know?

You can assume what people want, or you can ask the audience and really know.

It's all about perception

You could be heavily investing in the news or music, but if the audience doesn't notice these things, your investment is wasted. Mapping shows you in detail what really appeals to the audience. You get a precise picture of a radio market - audience needs and demands, competitor, images, everything. From music styles to content - what works with the audience and what doesn't. Times are changing fast after all.

Why mapping?

EXPERIENCE AND RESULTS

We have conducted hundreds of strategic studies to support great media brands since 1996.

IT IS BASED ON DEMANDS AND LIFESTYLE

Mapping delivers a segmentation model to identify target groups (so called clusters) based on demands and lifestyle - not on usual socio demographics that don't tell anything about a person.

ACTION PLAN INCLUDED

We don't deliver just results of the survey, but also an action plan to optimize your product, as well as your brand communication.

CUSTOM BUILD FOR YOU

Each market is different. Each situation is unique. We wouldn't be able to keep doing this for brands like RTL, ORF, TELEKOM and ARD since 1996 if we would not adopt the survey every time for every client.
